About Me

I'm an Electrical engineer with transversal skills on product design, testing, project management and quality in the automotive field.

As Project Manager, in Denso, I have experience in product customization and direct relationship with customers. As product design manager I also have experience in VAVE activities and manufacturing technical support.

Always ready for new challenges, team work oriented, focusing on personal relationships.

Education

University of L'Aquila

Master Degree (2011)

Electrical Engineering

Thesis "Modeling of Lundell alternator"

University of L'Aquila

Bachelor Degree (2007)

Electrical Engineering

Thesis "Hospital Electrical System design"
